Milan Conference 2015

Biggest Fair Trade Event of the year had over 260 participants from over 50 countries. Milan was named **The World Capital of Fair Trade!**

We were happy to have Nepal members come after recent suffering of the earthquake. Fair Trade Group Nepal thanked all who helped. They still need help however and would appreciate donations.

Communication in Milan was a big success and created new ideas shared across Fair Trade members. WFTO Global will send conference reports on the outcomes of Milan workshops.

WFTO-Asia Annual General Meeting (AGM)

On 26th May 2015 was WFTO-Asia's AGM. Accounts and plans approved. The networks and governance groups will continue, please let us know if you would like to join these groups. A discussion was held on Fair Trade fashion cat walks. Johnny Joseph ([Creative Handicrafts](#)) was (re) approved WFTO-Asia representative on the global Board.

WFTO-Asia Regional Conference 2016

The Milan Conference is over. Time to plan the next WFTO-Asia regional conference in mid-late October 2016 in Bangkok. Exact dates coming soon. It will have a market focus with an online marketplace for Fair Trade Organisations promoting Fair Trade producers. If you want to be part of planning the conference please let us know!

Fair Trade Spotlight

Shujog ACTS

Shujog's award winning ACTS Program prepares social enterprises (SEs) to raise capital by advancing the cost of technical assistance (TA) and managing a network of technical assistance providers (TAPs).

Shujog supports SEs to show their financial and operational strengths to investors with TA that includes:

- Tailored package of investment readiness support from TAPs; and
- Impact Assessment conducted by Shujog

As SEs become successful in raising capital, they pay back the program so Shujog can support more SEs sustainably.

The program also grows the impact investing circle by bringing in new TAPs

SmartFarming App

Empowerment through knowledge, Smartfarming's smartphone app tells farmers of eco-friendly farming methods and hazards. Farmers can rate methods they have used for others to see. Watch the short video [here!](#)
